POWDER AND STEAM ON A RACE FOR SUPREMACY.

A Postmaster and Judge Shot Down--Another Steam Boiler Explosion--Only a Misplaced Switch.

NEW ORLEANS, July 11.—A Lake Providence, La., special despatch reports the killing of Postmaster Austin by Squire Leesk, of West Carroll, and the mortal wounding of S. L. Austin, Jr., Parish Judge. W. H. Smith, colored, who was crossing the street during the melee, was struck, it is alleged, by a stray bullet and was instantly killed.

ANOTHER BOILER EXPLOSION.

BALTIMORE, July 11.—A boiler exploded this morning in the planing mill and box factory of C. P. Stevens & Co. The boiler house, which was a small one-story brick building at the rear of the factory, and a three-story brick building adjoining the boiler house which was used as a box factory, were completely wrecked. A portion of the wall of the main factory, a large five-story brick building, was blown out from the bottom to the upper story. Large plate glass fronts and windows for a distance of two squares, were also demolished. At the time of the explosion but a few hands were in the factories. August Setzer, one of the proprietors, and Henry Ulrich, the engineer, were instantly killed. Six or eight persons are said to have been injured, some of them seriously.

EXPLOSION OF A POWDER MILL.

SAN FRANCISCO, July 10.--At Bodie to-day a terrible explosion of a powder magazine occurred, near the old Standard Incline Works, which were blown to atoms. The Summit Works, a short distance off, were shattered to pieces. At present the following persons are reported to have been killed: Frank Fryder Thos. Flaherty, Wm. O'Brien and several others whose names are not yet obtained. The wounded are S. D. Pierce, slightly; Thomas Murphy, arm fractured; Mr. and Mrs. Chaff, slightly; Sullivan, engineer at the Standard Incline, had both eyes blown out and his skull fractured. He cannot live. Mr. Hedge had his leg broken. A Chinaman was buried under the ruins. His body has not yet been found. Thos. Gill was hurt in the face. Richard Palmer was hurt on the arm and body. Hugh McMillan had a leg broken and injured internally. James Hyckey, foreman, was hurt on the foot and otherwise severely injured. Mrs. McKenney and child were buried in the ruins of her house, and were extricated with difficulty. John McMillan was buried in his cabin, and taken out slightly injured. The whole town is a hospital. Every moment news comes of more deaths and injuries. As far as heard from there are eight persons known to be dead, and over forty wounded, with a prospect that many will die from their injuries. Women and children are crying and searching for the remains of their loved ones. It is probable that many were blown into the air and their remains scattered broadcast.

A MISPLACED SWITCH.

WILKESBARRE, Pa., July 11.—Train No. 15, of the Lehigh Valley Railroad, which left here at 1:35 o'clock this morning, met with an accident at Fair View, caused by a misplaced switch, which threw the engine down an embankment killing August Hebker, the engineer, and fireman Ed. Knull. No one else was hurt

**Death of Ex-Governor Allen, of Ohio.**

CINCINNATI, July 11.—Ex-Governor Wm. Allen died suddenly at his home, near Chillicothe, Ohio, this morning.

**A Virginia Hanging.**

WARRENTON, Va., July 11.—John Williams and Winter Payne were hanged here to-day, the former for the murder of Howard Haltzerow, who was acting railroad agent and telegraph operator, at Warrenton Junction, in February last, and the latter for the murder of an old negro named James Adams, at Salem, Fauquier county, in April last.

LATER.

WARRENTON, Va., July 11.—The first execution of criminals in Virginia since the passage of the law requiring executions to be private took place here to-day. John Williams (colored) was hung for the murder of Howard Haltzchaw, telegraph operator in February last and Winter Payne (also colored) for the murder of an old man named Adams in April. Both died after a very brief struggle.

**Yellow Fever Quarantine.**

LITTLE ROCK, July 11.—Yellow fever news from Memphis creates profound excitement. Little Rock is in an excellent sanitary condition. Nevertheless the Board of Health met and resolved that no train on the Memphis & Little Rock Railroad shall be permitted to enter within quarantine limits, five miles east of the city, after 12 o'clock to-day. Several health officers were ordered to be placed on the Iron Mountain Road. Dr. Collum was appointed to meet the incoming Memphis train. Mayor Fletcher was notified to appoint a sufficient number of sanitary policemen to be placed under the control of the sanitary officer, Pat Morrison. Numerous anxious inquiries by telegraph from the neighboring cities of the State are made to the Board of Health, looking to full co-operation with the Little Rock officers.

**The Canadian Team Beaten.**

TORONTO, July 11.—A special cable telegram from London to the *Globe* says the Canadian team shot a match yesterday with the Liverpool rifle brigade. The latter were victorious by seven points. The shooting was good, but the weather was very unfavorable.

**Liverpool Cotton Brokers' Circular.**

LIVERPOOL, July 11.—This week's circular of the Liverpool Cotton Brokers' Association says cotton continues in limited demand. American advanced 1-16 of a penny during the beginning of the week, but for the past three days the demand has been small with a large supply on hand. The quotations are now 1-16 of a penny below those of last Thursday. Sea Island continues in moderate demand and prices remain unchanged. Futures opened firmer and continued to improve during Saturday and Monday, prices advancing from 3-62 to 1-8 of a penny. Since then they have been weaker and the advance has been lost. Prices declined as compared with last Thursday's quotations 1-8 of a penny for near and 3-32 of a penny for more distant positions.

**An Almost Ruined City.**

ST. PETERSBURG, July 11.—A second fire has occurred at Irkutsk which destroyed five churches, convent, Lutheran church, courts of justice, police offices, telegraph office, post office, excise, artillery, engineers and medical establishments, three banks of barracks and the town hall.

**The Smith-Bennett Appeal Case.**

TRENTON, N. J., June 11.—In the Smith-Bennett case this morning, Justice Knapp, of the Supreme Court decided that the errors assigned are not supported and the judgment should be affirmed as in Oyer and Terminer. The case now goes to the court of errors and appeals on assignments.

**Singular Suicide.**

NEW YORK, July 11.—Samuel Bailey, formerly a mate of a steamboat, made an extraordinary attempt to commit suicide yesterday by beating the top of his head in with a small hammer. He cannot recover.

**Arrival of Hanlon.**

NEW YORK, July 11.—Edward Hanlon, the champion oarsman of the world, arrived here in the steamer City of Chester to-day, and was met in the lower bay and warmly welcomed by a crowd of friends. He has a reception to-night in the Madison Avenue Garden.

**More of "The North Carolina System."**

Danville News.

Not enough importance, we fear, is attached by our citizens generally to the subject of the new road proposed to be constructed from the lower end of Craighead street to extend by way of Walker's mill into Caswell county. It will be one of the most important of all the roads leading into our city. It will be the great highway of travel for the people of Caswell, Person, Granville, Orange and other North Carolina counties, and by making our city much more accessible to them will induce larger numbers of them to come here bringing their tobacco to sell and to trade with our merchants.

We are glad to know that the undertaking is in the hands of gentlemen of energy and public spirit which gives assurance that the opening of the road will be pushed forward without delay.

**The First Divorce Suit Between Colored People.**

Washington Post.

A divorce suit between colored parties, brought by a colored attorney, was filed in the District Supreme Court yesterday. The parties are Henry and Elsie Johnson, the husband being the suitor. He sets forth a marriage on December 3, 1868, at the Sixth street Baptist church, in South Washington, by Rev. W. H. Lee. Happiness attended the union until the year 1877, when the husband of nine summers began to notice what he thought to be an undue degree of intimacy between his wife and a man named William Lawson. He watched, and found his worst fears fulfilled.

**July Astronomy.**

Toward the end of this month six planets will be prominent in the evening sky. Venus, Mercury, and Uranus may be seen in the earlier part of the evening, an hour after sunset, and Jupiter, Saturn and Mars are above the horizon before midnight. The three latter are approaching their opposition, and are consequently increasing in size and brightness. The July moon was full on the 3d, and even yet there is only an average difference of twenty-four minutes in the time of rising, so that the midsummer evenings are flooded with silver light. To night she will form a picture fair to see, when in conjunction with Jupiter. On the 11th she is near Mars and Saturn. The new moon of the 19th is in conjunction with both Mercury and Uranus when two days old. On the 22d the loveliest conjunction of the month takes place between the moon and the fairest of the stars.

**The Duffy Mine in Gaston County.**

Charlotte Observer.

The amount received for tolls last month, when the mine was not run more than fifteen days—not however, from want of ore—would pay 8 per cent. on $15,000 or $18,000. Everything is represented now as in splendid condition, and a ten-stamp mill run during the 36 hours ending Tuesday evening, took up 502 pennyweights of amalgam on the plates outside of the battery. Yesterday 1,000 pennyweights were taken up, and Mr. Richards claims that he can make the mine average this amount per day. He confidently asserts that it is the best mine in North Carolina.

**The Tarboro Bank.**

Southerner.

The stockholders of the Pamlico Insurance and Banking Company, of Tarboro, met in their office on Monday. James R. Thigpen was called to the chair, and Theo. P. Cheshire acted as secretary. The committee to which was committed the "banking question," reported favorably, and after considerable discussion, the report was adopted. It was resolved that an additional 5 per cent. on stock notes be called in by first November and 5 per cent. on January 1st. Banking operations will begin on November 1st.

## YELLOW FEVER.

NO NEW CASES REPORTED IN MEMPHIS.

Trains Leaving Memphis Crowded to Suffocation---Action of the Galveston Board of Health.

MEMPHIS, July 11.—There have been no new cases of fever to-day, and the panic of yesterday has greatly subsided. Everything this morning is quiet. The sick members of Judge Ray's family are progressing favorably. There is no spread of the disease anticipated. It is said that fully 5,000 people left the city yesterday.

The midnight trains of the Louisville and Memphis and Charleston Railroads last night left crowded to suffocation. Both roads sent out double trains, and yet were unable to accommodate all who wished to leave, many being compelled to remain over until to-day.

The Little Rock Railroad sends out its last train at noon, the authorities say that the city having notified the railroad officials that the quarantine would be established on all trains leaving Memphis after that hour.

GALVESTON, July 11.—The Board of Health last night declared quarantine against Memphis, and all freight from that point will not be allowed to enter the city, and passengers will not be admitted only after the expiration of twenty days from their departure. The Board also passed a resolution that all vessels from healthy ports outside the tropics shall be forbidden to touch at Key West.

**Origin of the Republican Party.**

N. Y. Mail.

The Republican party is now a quarter of a century old, and the fashion of the times to celebrate anniversaries has stimulated inquiry as to the place, the date, and the manner of the party's origin.

The movement throughout the North which produced the Republican party was so spontaneous and general that it is difficult to decide with certainty where the honor of its origin belongs. Evidence seems to preponderate, however, in favor of Michigan as the place which has the clearest claim to so worthy a distinction. It is probable that in a convention held July 6, 1854, under the oaks at Jackson, Michigan, the Republican party was first christened in a series of resolutions, one clause of which declared that "We will co-operate and be known as Republicans until the contest be terminated." The storm of indignation which followed the Kansas-Nebraska act prepared the way for a fusion of the Whigs and Free soilers, and the movement culminated in the convention at Jackson. The correspondence and co-operation of Horace Greeley, Joseph Warren, editor of the Detroit *Tribune*, and Jacob M. Howard, who afterward represented Michigan so many years in the United States Senate, seem to have prepared the way for the combination at Jackson, and to these men the honor of suggesting the name of the new party jointly belongs. At that convention, I. P. Christiancy, now United States Minister to Peru, formally withdrew the free-soil ticket, and the united foes of a spurious Democracy entered upon a brilliant career which has never since permitted Michigan to fall into the hands of the Democrats at a State election.

**A New Railroad Center.**

Fayetteville Gazette.

They are thoroughly aroused in Statesville. Mooresville has flanked them to their detriment, and speaks of flanking them on another side by running a narrow gauge to Taylorsville, in Alexander county. An inspection of the map will show that Statesville is in danger of being flanked like Winston, and also, like Winston, has grounds to be thoroughly aroused. So she has struck out, according to all accounts, upon a new departure, to wit: becoming a railroad center—a wise conclusion—as the certain multiplication of these new-fashioned, cheap railroads will render any point in danger of being flanked; so the wise conclusion of both places alluded to is to adopt the latter policy.

**A Frightful Accident.**

Lenoir Topic.

As the hack containing the two daughters and a son of the late George Hartley was nearing home on the 4th instant from the picnic at Patterson, going down a steep hill, the brake being deficient the vehicle ran upon the team, which soon rendered them wholly unmanageable. They rushed furiously down the hill, and about midway caught the wheel against a tree. This at once extricated the team, and brought up the vehicle so suddenly as to precipitate the occupants a distance of forty-five feet down the hill, striking the ground where it was bare and rocky, upon their faces. One of the young ladies was stunned so that for an hour she was speechless and insensible. She reacted and presented a severe contusion of the face, laceration of the tongue and lips, and general soreness from the shock. The other young lady was severely bruised over the left eye, and her left ear torn nearly off from the head, besides being severely lacerated.

**The Cotton Crop.**

The Committee on Statistics from the Norfolk and Portsmouth Cotton Exchange make the following report of the condition of the cotton crop in Virginia and North Carolina:

"From 28 replies from 20 counties in North Carolina and Virginia the following report is compiled:

"Twelve replies report the weather for June as very dry and cold; 16 replies report the weather for June as being favorable for cotton; 24 replies report the weather more favorable in June than last year, and 4 replies report it not so favorable as last year.

"No increase or decrease in land planted since last report. Stands are generally reported good and forming good, but rather early for blooms.

"The condition of the crop is considered good and better than last year.

"Lice are reported in three counties."

The squall on Sunday did considerable damage. It did not last more than five minutes. It must have damaged the crops one half, where it passed, from Newbern's Landing to Jarvis' Store. Thomas Newbern and Wash. Newbern were the chief sufferers. Chimneys were blown off, stables unroofed, and fruit trees completely stripped of foliage and fruit. For a few minutes the tornado was terrific.

## NORTH CAROLINA RAILROAD.

**President Holt's Report of the Financial Condition of the Road.**

Charlotte Democrat.

The annual meeting of the stockholders of the North Carolina Railroad was held in this city on Thursday, July 10th. The attendance of stockholders and visitors was as large as usual.

The meeting was organized by calling R. Y. McAden, Esq., of Charlotte, to the chair, and appointing W. L. Thornburg, J. L. Chambers and James A. Graham, secretaries.

The Committee on Proxies (consisting of A. B. Springs, S. A. Cohen and W. J. Yates) reported 82 shares of stock of stock represented in person, and 8,244 by proxy. [The reason such a large proportion is reported by "proxy" is, that many who were present individually gave their votes to others to be concentrated in one direction for directors or otherwise, as usual on such occasions.]

The president, Colonel Thomas M. Holt, presented his annual report, as did also the secretary and treasurer and finance committee, which were adopted.

A vote for four directors on the part of the private stockholders resulted in the re-election of the old board, viz.: Thomas M. Holt, of Alamance, M. L. Holmes, of Salisbury, Dr. R. B. Haywood, of Raleigh, and H. W. Fries, of Salem.

The directors appointed by the Governor for the State are: A. Burwell and John L. Morehead, of Charlotte, Kerr Craige, of Salisbury, W F Kornegay, of Goldsboro, Donald McRea, of Wilmington, Dr. Pride Jones, of Hillsboro, R. F. Hoke, of Raleigh, and John A. Gilmer, of Greensboro—being the old board except Dr. Pride Jones in place of John W. Graham, who holds another office in the Company, and Colonel John A. Gilmer in place of Julius A. Gray, who has been elected president of the Cape Fear & Yadkin Valley Railroad.

The State's interest was represented by Charles M. Busbee, Esq., of Raleigh, by appointment of the Governor.

The following persons were elected a Finance Committee on the part of the stockholders: Peter Adams, S. H. Wiley and John L. Brown. The board of directors will elect two of their number, making five in all.

The next annual meeting will be held at Greensboro in July, 1880. The committee appointed to verify proxies at that meeting consists of Charles G. Yates, L. Swain and J. H. Lindsay.

A vote of thanks was tendered to the chairman and secretaries, and the meeting adjourned.

From the report of the president we have only space to copy the following extract showing the financial condition of the Company:

GENTLEMEN:—I submit to you, and through you to the stockholders of the North Carolina Railroad Company, the following reports of the receipts and expenditures and debts of the Company up to the end of the fiscal year ending May 31, 1879:

| | | |
|---|---|---|
| Receipts from all sources, | | $267,333.72 |
| Expenses for the year including salaries, board of directors and finance com'tee, | $4,501.88 | |
| Paid revenue tax, old salaries, repairs of Company's buildings etc., | 7,614.13 | |
| Paid interest on debt, | 20,420.00 | 32,536.01 |
| Leaving a balance of | | $234,797.71 |

This amount, $234,797.71, has been applied to the payment of dividends, sinking fund and other purposes (principally to dividends), fully shown in detail in the report of the treasurer.

DEBT OF THE COMPANY.

| | | |
|---|---|---|
| The total debt of the Company reported at last annual meeting was | | $427,242.11 |
| The debt of the Company now is | $416,985.38 | |
| From which deduct amount of assets, | 156,869.72 | |
| And we have the actual debt of the Company, | | $260,115.66 |

Of the above $156,869.72 assets, $6,448.28 is cash deposited with banks and cash items, $135,660 is cash in the hands of N. H. D. Wilson, Trustee, and $3,076.32 is cash in the hands of John W. Graham, Trustee, making a total of $138,736.32 in the hands of Trustees for the redemption of mortgage bonds. The remainder, amounting to $11,685.12, is shown in the secretary and treasurer's report of the financial condition of the Company, most of which is in judgments; the remainder is due by other companies, individuals and bills receivable, from which a few hundred dollars may be realized at some future day, and for this reason the directors did not deem it advisable to charge them off at this time."

## THE SCATTERED NATION.

THE HEBREW CONVENTION DISCUSSING AGRICULTURE.

An Exciting Debate on the Sabbath Question--Defining the Status of the American Rabbi.

NEW YORK, July 10.—To-day Rev. Dr. Mendes, on behalf of the General Committee on the Hebrew Union College, read a report recommending the reception into the curriculum of branches of instruction looking specially to the practical work of the future rabbi, such as exercises in homiletics and questions of Jewish jurisprudence.

THE AMERICAN RABBI OF THE FUTURE.

Rev. Dr. Huebsch, of the Lexington Avenue Temple, demanded the attention of the delegates to the report just presented. Upon it depended, he said, the welfare of Jewish congregations, so that they could have proper men to guide them in their spiritual affairs. Judaism, it is true, was very old, but it was very young in this country.

The report was adopted.

EXCITING DEBATE.

Mr. Lewis May here presented the report of the committee on that part of the President's address recommending a stricter observance of the Sabbath. The report was as follows:

Your committee, to whom was referred so much of the report of the President of the Executive Board as relates to the better observance of the Sabath, respectfully report that the committee are of opinion that the religious welfare of the Jewish community depends greatly on the preservation of the Sabbath. It is necessary for us, as for all religious bodies, to have certain ideas in common and to have certain outward symbols to express them. The means for obtaining a stricter observance of the Sabbath are, however, not within the reach of the Council. Persuasion, example and instruction alone can produce proper sentiment on the subject. No legislation on our part can influence the matter.

Mr. Joseph Abrahams, of Cincinnati, demanded that the committee should in speaking of the Sabbath insert the seventh day of the week as such. He did not want it to be left an open question, like a political platform. Rev. Dr. Sonneschein, of St. Louis, declared that there was no Israelite in that Convention who entertained the slightest doubt about what the day meant. It was the seventh day, no other day.

Mr. Abrahams here said: "How many are there not here, how many are there not out of doors, who use the fine phrase that the Lord accepts our prayers on Sundays as well as on Saturdays? I care not what dissensions this discussion may lead to, the groundwork must be set forth right here from this Convention. If you are ashamed to declare in this report that you mean the seventh day as your Sabbath you give your opponents a chance to say that you have left it an open question."

Rev. Dr. Sonneschein—Will the gentleman allow me to interrupt him for a minute?

Mr. Abrahams—No, sir; not a single minute. As long as I have a voice in this Convention I shall maintain this ground. I intend to have this Sabbath question fairly and openly discussed.

Mr. May (chairman of the committee)—Is there anywhere a Jewish congregation, or Jewish society, that does not keep the seventh day as the Sabbath?

Several Voices—Yes, sir! Yes, sir!

Mr. May—Where?

Several Voices—In Chicago and other places.

Mr. May—I can only say, then, that we stultify ourselves by inserting the fact that we mean the seventh day.

WHY THE JEWS VIOLATE THE SABBATH.

Mr. Josiah Cohen of Pittsburg, said that if he were the president of the council he would not tolerate this discussion. The committee had made a wise disposition of the question. The Jewish Sabbath had nothing to do with this Convention. It was buried in the hearts of the Jewish people, and would never die. "You might as well say," continued Mr. Cohen, "that a Jewish representative body, speaking of the God of Israel should put in parenthesis—we don't mean the Christian God. I tell you the reason why the Jewish Sabbath is not celebrated is that the economy of the business of the world, the exigencies of the commerce of this society and of this world are so urgent that there are some of us who have not been able to contend against the influences which compel us to do things which ought not to be done. The Jewish Sabbath, nevertheless, is the golden tie which binds us to the memories of the past, and which will remain as the brightest gem in the diadem of modern Judaism as it always was in the Judaism of old." (Great applause.)

After further speeches, Mr. Abrahams declared that his object had been reached, he had obtained a declaration of views on the part of the delegates of the Convention, It would go out to the world now that the members of the Council of Hebrew Congregations in celebrating the Sabbath meant the seventh day of the week. He therefore withdrew his amendment. [Cries of "Oh!" "Oh!"] The report of the committee was adopted. Mr. Abrahams alone voting "No."

GOVERNOR SEYMOUR ON IRISHMEN AND JEWS.

Ex-Supervisor G. N. Herrmann presented to the chair a letter from ex-Governor Horatio Seymour on Irish and Jewish farming, and begged its reference to the Committee on Agriculture with a few appropriate remarks. The following is a copy of Mr. Seymour's letter: * * * *

I do not doubt that the Hebrews would gain much if they would become farmers. I do not know how far those who come from Poland, Russia or Turkey are used to farm work. All who know how to cultivate the soil should by all means go upon the cheap lands of the West and should settle in communities, so that they will have attachment growing out of a common language and faith, but I think that their communities should not be made up of numbers so large that they cannot adopt the ways of the country and assimilate with its usages and the theories of this government. The unjust laws of most European countries have forced the Hebrew race into a limited class of pursuits, and they have excelled in these. It is very important, not only for them, but for our country, that they should enlarge the number of their industries, that they should become the owners of land and cultivators of the soil. I do not know how far they are prepared to become successful farmers. It cannot be wise to plant colonies in the West unless a large share of them are trained to country pursuits. It may take time to get your people into the way of living as the American people do, but there is no doubt that it is wise, as far and as fast as you can, to get a due proportion of them to become cultivators of the soil.

I am truly yours,

HORATIO SEYMOUR.

Hon. G. N. HERRMANN, N. . .

**A Word About the Cemetery.**

Correspondence of the News.

NEW YORK, July 9, 1879.—I noticed with pleasure in the proceedings of the Directors' meeting of Oakwood cemetery that it is proposed to take some action to beautify the grounds where so many of the noble dead of North Carolina are laid.

If all of your citizens who are so much interested in Oakwood cemetery could only spend an afternoon in Greenwood, in Brooklyn, they would doubtless return home filled with an ardent wish that Oakwood might receive some proportionate amount of attention bestowed so fully on Greenwood. Here, as a rule, each family owning a lot, bestows the utmost care upon it, in planting hardy, beautiful roses, to the grass, fencing, etc., although as a rule the lots are arranged as in Oakwood in regard to absence of fencing. It must not be supposed that all of the lots are owned by wealthy families, as many humble stones may be seen among others that cost thousands of dollars. The managers of the cemetery see and require that the grounds be kept in order, and the consequence is that Greenwood is one of the prettiest places in the country.

Oakwood, as I recollect, possesses many natural advantages; rolling grounds presenting a partial view of some of the monuments to the northern portion of the city, a convenient distance, a pretty lake; all that is required to make it a lovely spot is careful and constant attention. It will be urged that improvements cost money, and that money is scarce in the South; but how is it that Charlotte with a cemetery, newer, I am told than Oakwood, has done so much more for its adornment than your city has done for its home of the dead? I fear it must be confessed in this, as in some other particulars, Charlotte is disposed to show more of public spirit than Raleigh, which city needs men to assume the mantle of such public benefactors as the late George W. Mordecai, whom I know was deeply interested in Oakwood. Aid the committee! Adorn the cemetery!!

The Directors of the New York and Brooklyn bridge have given perhaps the largest order for steel known in some time, 10,000 pounds. So far $10,000,000 have been expended on this work and but little to show for it, except two colossal pillars and a few iron cables stretched across.

Sun-strokes have not been frequent so far, but the hottest time is to come.

President Hayes' action in appointing ex-Confederate Colonel W. H. Roberts to revise and codify the United States army laws, has given ground for much criticism. Z.

**Rules of Health.**

Nothing is so essential to health at this season of the year as a proper observance of sanitary rules. The following suggestions in this line will be valuable:

*Drainage*—A thoroughly drained soil is all important. Sewers should be properly located and frequently examined, so as to insure cleanliness and effectiveness.

Houses, cellars and yards should be cleaned.

*Water Supply*—"Water, next to air, is the chief necessary of life." We may even place it before food, because all food is largely composed of it. Cisterns should be constructed of suitable material; its water ought to be frequently examined and kept free from color, odor or other indications of impurity. Wells are the most dangerous sources of water supply, for few wells are safe from surface pollution. They should be properly located, to avoid all possible risk of contamination from their surroundings, carefully built with elevated curbs and covered tops. The water they contain should be examined at short intervals. A simple method of examination is by dissolving a lump of loat sugar in a quantity of suspected water in a clean bottle, which should have a close-fitting glass stopper. Set the bottle in a window of a room where the sunlight will fall upon it. If the water remains bright and limpid after a week's exposure, it may be pronounced fit for use. But if it becomes turbid during the week it contains enough impurities to be unhealthy. Such water should not be used for drinking purposes until it has been boiled and filtered.

*Dwellings*—The prime condition of health in a house depends upon cleanliness, pure air and unpolluted water. Good ventilation is absolutely necessary. Rooms should be frequently aired and a daily visit from Dr. Sunshine encouraged. Overcrowding is a fruitful source of air-pollution in dwellings.

**Ho! To the Mountains!**

Charlotte Democrat.

The completion of the Spartanburg & Asheville railroad to Hendersonville opens up a new, expeditious and pleasant route to the mountains of North Carolina. Trains from the Richmond & Danville railroad, the North Carolina railroad, and the Carolina Central railway all connect here at Charlotte with the Atlanta & Charlotte Air-Line railway, and then the A. & C. Air-Line connects at Spartanburg with the Asheville & Spartanburg road, so that the trip to Hendersonville is direct and speedy. From Hendersonville to Asheville daily stages run over a good road, and the fare is as low as any one could want. Passengers leaving Charlotte at 10:30 a. m. will arrive at Hendersonville at 6 p. m., and at Asheville at 10 p. m.—making the trip in 12½ hours.

Those who do not wish to go the above route, can take the 9 p. m. train from here to Statesville, and reach Asheville next day—also a pleasant route.

**The Wheat Crop---Low Prices.**

Chattanooga Times.

Our dealers heretofore have been quite active in filling Southern orders for new wheat, but this season they are receiving no orders at all from the South. The Southern mill owners write that they can buy all the wheat they can use at a much lower figure than our merchants can buy it from the growers, which shows that, on account of the stringency of the times and the scarcity of money, the farmers are compelled to dispose of it at any price. Our farmers are anxious to sell their crops, but say they cannot afford to take the prices offered by our merchants, and the merchants cannot afford to pay them more, because they cannot sell it for more. There is an immense crop, and it is of a very superior quality, but the quantity rules the prices more than the quality. Georgia has grown an immense crop, and prices will not advance, but on the contrary recede, until this large crop is used up by the mills and the flour disposed of.

**The American Sir Joseph.**

When I was young I served a term
As partner in a dry goods firm;
I measured calico "and sich,"
Till I got to be immensely rich.
I got so rich and I lived so free
That now I am a Senator and LL. D.

In politics I made my trail
By twisting the British lion's tail;
When my party fiddles I always dance,
And I punch Jeff Davis when I get a chance.
I punch Jeff Davis so remarkablee
That now I am a Senator and LL. D.

## FOR THE TAX COLLECTOR.

OFFICIAL JUNKETING AT THE GOVERMENT'S EXPENSE.

Postmaster General Key and friends take a Pleasure Trip at Uncle Sam's Expense.

WASHINGTON, July 9.—Postmaster General Key and party started on a three months' junket this morning, which will probably be called an inspection tour. The railroads will doubtless furnish the transportation and hotel bills will probably be paid out of the per diem or other fund from which such inspection journeys are supported. The tour will embrace the whole of New England. The party will spend some time in the White Mountain region, and Halifax will be visited during the summer. Postmaster General Key stated that he had no fences to mend and that his trip is without political significance. It is not, however, without economical significance. This leaves the Post Office Department without any immediate head, except that Second Assistant Postmaster General Brady is acting Postmaster General. Tyner and other post office officials have been absent making a tour of the western portion of the continent since the first of May. The last heard from them was at Puget Sound, when they telegraphed asking if they could remain away another month. This party is now expected to return here about August 1st, and will then have been absent three entire months, or one quarter of the fiscal year. They are drawing their salaries and the government is undoubtedly paying many of their expenses. It is not known that any reports as to the inspection have been received at the Post Office Department. Certainly no great changes or improvements in the postal service have been recommended as a consequence of this three months' pleasure jaunt. There probably has never been such an extended junketing tour since the organization of the goverment.

**The Women of To-Day.**

A 12-year old girl plays the cornet in South Church, Pittsfield, Mass.

At Bolton, England, an Episcopal church has a woman for church warden.

At the marriage of Lord Durham's second son, eight of the eleven bridesmaids were the bride's sisters. His father-in-law would doubtless be glad to "give" the rest of his daughters away.

A New York lady has offered $500 reward for the return of a pet rat. She says she cannot sleep till she has another pet rat, and is hunting the city through for one.

An Association for the Advancement of Women has been organized in Poughkeepsie, N. Y. It gives a course of free lectures on science, and all the lecturers are women.

A well patronized and novel company has been organized in New York, which furnishes, on application by ladies, temporary escorts to places of amusements, or wherever an escort is needed.

Since Miss Abbott helped the Smith-Bennett case by her contributions, she has been besieged by letters begging for everything under the sun, from house rents to baby-jumpers and sewing machines.

Some men are often heard to declare that they cannot enjoy the society of women because they are so frivolous. They should recall Michelet's doctrine, "The folly of women is born of the stupidity of men."

Queen Victoria has completed her 60th year. Only eleven English sovereigns have exceeded that age. Victoria has reigned forty-two years, almost as long as Elizabeth, who laid down her sceptre at the end of forty-five years' rule.

She who was Julia Smith, now Mrs. Parker, still clings to her doctrine, "No taxation without representation," and yet submits to annual seizure of her cows to satisfy the law. The cows are put up at auction and bid in by her husband.

Men do the rough work of a nation, but the judgment of the world is formed by its women. In these days women are in the front rank of society and represent its families. For this very reason she should keep her standard high, always raising but never lowering it.

Said Dr. Cuyler, in address to the girls at Cuyler Institute: "Let woman do whatever she can do well. Let her follow every path of usefulness where in she can walk gracefully and without stumbling. Can she set type or make a telegraphic instrument talk in electric speech? Then let her do that with a happy heart and to the music of a merry voice."

Miss Susan King is a Maine woman who has amassed a fortune of half a million of dollars by the sale of tripe in the City of Boston. That was her foundation stone to fortune; investing the money derived from this in real estate in New York, she has gradually but surely built up a large business. She was a poor girl and made this by her own clear brain and individual exertions.

**RED AND BLUE LEGS.**

Displayed by Women who Dared to Play Base Ball.

Washington Post 10th.

Fearful and wonderful are the works of nature, and so was the base ball playing of the red and blue-legged female nines yesterday afternoon at Eagle Park. The reporter of the *Post* was selected because he knew absolutely nothing about base ball, and therefore he understood and enjoyed the unique game which was presented yesterday with a relish that was shared by two or three thousand spectators inside the inclosure. For a lofty independence of character that utterly disregarded the narrow and technical requirements of the science, for incomprehensible vagaries in pitching and batting, for thorough and universal fielding and strangely erratic, but interesting, catching, the game deserves honorable mention in the record of famous encounters on the diamond field. The reporter repeats "thorough and universal fielding," for the players took turns in tumbling all over the grounds within the diamond lines, and were the game repeated they would probably cover every inch of the ground. Probably three thousand persons, including many ladies, were on the grounds, amused, interested and instructed. Veteran base ball players saw what they had never seen before, and they were given hints in every department of the game, which were original and unique, if not scientific and technical. The crowd was unusually harmonious and good-natured, acted as impartial umpires, and cheered the girls with such good and kindly words as to put fleetness in many a fatigued feminine foot, and force in many a failing feminine fist.

HUSSEY & JORDAN, PROPRIETORS

JOHN B. HUSSEY, - - Editor.

SATURDAY, - - - - JULY 12, 1879.

### INDEPENDENCE IN POLITICS.

The Independent movement in Georgia is assuming the shape of a party organization. We notice in the Atlanta *Dispatch* that a call has been issued for a convention of "all persons aloof from either the Democratic or Republican parties." The NEWS believes in independence of thought and action in politics. Upon this depends the preservation of our liberties and the overthrow of rings and monopolies. But there is a way to be independent without being a traitor. If our so-called independence endanger our civilization by the re-establishment of Radicalism, it can no longer be styled independence, but self-aggrandizement.

"Our independence must exert itself inside of the Democratic lines. There is room enough there for it. If the party is not purified, and rings not overturned, it is our own fault. It is because we are not bold and independent enough in our ranks. There is much to remedy, and it can be done alone by free speech.

It may do very well to kick against the shackles of party in communities in which one party is as good as the other, but, as matters stand in the South, it won't do. He who disregards the limitations of the party must under the circumstances be set down as an enemy.

Hypocrites may play Democratic tunes with a Radical blowing the bellows. Undeserving men may be elevated to position through private influences. Such wrongs will exist as long as the world lasts. But they must not be cured by going outside of the party. The man who does this is an enemy to good government. The remedy is inside of our own lines."

THE Union of American Hebrew congregations is the name of an association of Israelites now in convention in the city of New York for the consideration of various matters connected with the amelioration of the Jewish race. It is often said of the Jews that they are clannish, and the charge is true so far as it relates to the carefulness with which they consider the interest of Jews, as Jews. But this sort of clannishness is excusable, in view of the deprivation of civil rights to which Jews in all countries were so largely subjected during so many centuries. It is also quite unobjectionable, when we regard the good effects that result from it to the country at large, as well as to individual Israelites. Jews are absent from our poor houses, are not perceived in our workhouses, and are remarkably inconspicuous even in our prisons and reformatories. This is not because there are no poor Jews, but because the Jews take care of their own poor, and refuse to permit them to become a charge on the public. In spite of their own industry and thrift, their sharp bargains and their savings, there are poor Jews, and the most important matter brought before the convention is a scheme for transferring Jews from the crowded cities to other fields of enterprise, by colonizing them upon the unoccupied lands of the West or Southes.wt

THE Boston *Transcript*, a Republican newspaper which does not desire Republicanism to fall below the level of respectability, has these sensible and straight-forward remarks concerning the efforts to induce the Administration to interfere in the Ohio election:

But that the Stalwart element in the Republican party wants the President to do just what is here asked, that it wants him to debauch the civil service by making it even more of a political machine than it now is, that it wants the party to put itself squarely on record in favor of the most disastrous theory of government that ever was devised, is doubtless true.

In spite of the hopeful and resolute denial of the *Transcript*, it is to be feared that "the most disastrous theory "of government that ever was devised" will be put in practice in Ohio and elsewhere, for the benefit and under the auspices of John Sherman.

THE New York Commercial *Advertiser*, generally good authority, assures the Southern people that, excepting a a few incurable fanatics who have little money or influence, the people of the North feel no desire to break up the present Southern labor system, and will contribute a hundred dollars to transport the refugees back to their homes from Kansas, to every one dollar given by any rabid hater of the South toward depriving her capitalists of the only available labor for them. As long as Southern whites treat the blacks fairly, they may rest assured that no such unfriendly scheme will find many friends in the North.

THESE sentiments, which are the NEWS' sentiments, we are pleased to find in so influential a Southern journal as the Charlotte *Democrat*:

There is no good reason why Northern and Southern men should be at enmity with each other. The great mass of the people of the two sections, since the results of the sectional war, know that there is no cause for bad feeling between themselves, whatever may exist between professional politicians and chronic office-seekers. The promotion of kind and charitable feelings between the people of the North, South, East and West, will promote pecuniary welfare among all classes, and make this country the greatest and best the sun shines upon. Let all people and all sections so act as to produce that happy state of affairs when every man can say to his fellow "thou art my brother"—equal in patriotism and kindness toward each other, and equal in desires to promote the common welfare.

HAYES has indicated a willingness to make a wholesale sweep of Democrats from public positions. In proportion to the amount of patronage it controls, the Democratic party employs more of its political opponents than the Republican party by very large odds. Republicans hold some of the best positions under Congress, and not a few of them either. Under both House and Senate that is the case, and should the Democrats be ousted from the departments because of their politics, the order to remove them would make room for a number of deserving Democrats elsewhere.

THE Tarboro *Southerner* gives currency to an ugly scandal involving *prima facie* congressman Martin of the 1st District. The *Southerner* says:

He has left his own District and State and appointed a resident of Virginia, and a pupil of a Virginia military school, to the Annapolis Naval Academy. There are some ugly rumors of the Virginian buying the only other applicant off for fifty dollars. If Mr. Martin is aware of this, he should at once set the matter straight and revoke the appointment. It is in order for the Congressman to rise and explain to his constituents and State, why he found it necessary to give the appointment to a resident of another State.

THE Charlotte *Observer* has nominated for the office of Governor the present incumbent of the Executive chair, Hon. Daniel G. Fowle, Gen. J. M. Leach and, after a days' reflection adds the name of Col. Thomas M. Holt, of Alamance. If nothing else comes of the *Observer's* enterprise, the gentlemen named and others, perhaps, will have the pleasure of seeing their names in print and of reading many pleasant things in that connection. Any diversion this hot weather is agreeable.

CERTAIN as anything can be we are to have a revival of last winter's discussion about "a North Carolina system." The "buzzing" is heard from Wilmington, and the most ominous suggestions of "dead cocks in the pit" comes from Charlotte. What does it all mean? "It is a queer world; it is a queer world." Richard Dead Eye is right.

EDISON must have platinum for his electric lamp and offers $20,000 for the discovery of a platinum mine. The metal is peculiar to Russia but has long been found, so the Commercial *Advertiser* says, in North Carolina and California. Here is a chance.

President Eliot, of Harvard College, has put himself on record in the most unqualified manner in regard to the subject of education, which is receiving so much attention at present. His words are words of wisdom. He says:

I may as well abruptly avow, as the result of my reading and observation in the matter of education, that I recognize but one mental acquisition as an essential part of the education of a lady or a gentleman, namely, an accurate and refined use of the mother tongue. Greek, Latin, French, German, mathematics, natural and physical science, metaphysics, history and æsthetics are all profitable and delightful, both as training and as acquisition, to him who studies them with intelligence and love, but not one of them has the least claim to be called an acquisition essential to a liberal education or an essential part of a sound training. A thorough knowledge of one or two of them obtained in college, added to a very elementary knowledge of several of them obtained in school, makes a richer, stronger and more fruitful mind than a superficial acquaintance with each and all of them. The fruit of liberal education is not learning, but the capacity and desire to learn; not knowledge, but power.

#### Jefferson Davis.

New Orleans Democrat.

This legacy of Mrs. Dorsey will make the circumstances of Mr. Davis quite easy and comfortable. For luxury, display and any sort of ostentation Mr. Davis has never had any taste or ambition. Always cordial and agreeable to friends and visitors, the most delightful of companions and most instructive of conversationalists, he courts the quiet of philosophic retirement and reflection; and in his little study, with a good library and a diligent secretary to record his observations and recollections, relieved of all the cares and anxieties of active life, he will spend his declining years in a style befitting his great services and his eminent talents and virtues, so long devoted to his country, and so conspicuous in the history of the Republic.

#### How to Make a Solid Country.

Philadelphia Record.

The Vicksburg *Herald* celebrates its appearance in a handsome new dress by making a confession of faith, in the course of which it says: "The *Herald* believes the people are entering upon a new era of prosperity and good feeling, and will aid them with all its ability by demanding that the past, with its hates, its battles, its corruptions and its failures, be forever buried. It will forever combat the attempts of some to oppose the South to the North or the North to the South." Such sentiments as these are what will make a solid country.

#### Sherman sets a Good Example.

N. Y. Sun.

The Washington correspondent of the *Evening Post* reports that Mr. John Sherman has frankly admitted to a member of the Ohio Legislature that he is a candidate for the Republican nomination for President. He goes to Maine next Monday to make political capital for himself at the expense of Mr. James G. Blaine, and expects to tarry a while on the way in order to explain his true position on the silver question to the monometalists of the Boston Board of Trade.

#### Ike Young's Danger.

Wilmington Star.

There is a lively fight going on among North Carolina Republicans over the chairmanship of the Republican State Committee. Keogh, the present chairman, is for Grant, as is also Ike Young, both very strong among the Stalwarts. District Attorney Albertson is for Sherman. If Ike Young does not look out he will lose "his findings," and Shaffer will get his long coveted place. Ike is crafty and smart.

#### Personals.

Dr. Sims, of Lexington, Ga., is deemed of unsound mind by his relatives, while he, of course, holds the reverse opinion. He owns $50 000, about which his relatives are solicitous, and for which a shrewd widow married.

The body of the Prince of Orange was buried in three coffins. The first was lead, the second oak covered with glass, and the third massive mahogany with handles of chiseled silver.

Senator Thurman, when he goes on a jaunt, wears a linen duster that completely envelops him, there being on his head a large silk cap. Mrs. Thurman, who was with her husband when he sailed for the New England coast, is a small, delicate lady, with white hair and long curls, very gentle and pleasant in manner.

The rumor that Miss Mildred Lee, daughter of General R. E. Lee, is engaged to a rich merchant of Birmingham, England, is denied.

#### Excessive Heat in the West.

The weather at St. Louis, yesterday, was intensely hot and sultry, the mercury standing at 89 degrees in the shade. Six cases of sun-stroke were treated in the city dispensary, and four others resulted fatally.

The mercury at Des Moines, Iowa, yesterday averaged 90.

Two deaths from sunstroke in Memphis, Tenn., yesterday, porter and a night watchman.

*Talbott's Patent Spark Arrester,*

THE INVENTION OF THE AGE.

Talbott's new Patent Spark Arrester is really the only perfect and reliable one, and is superseding all others in use. The great efficiency of this Arrester is attracting universal attention, and is being endorsed by the best mechanical engineers and insurance companies. Its prominent features are:

It does not destroy the draft.

It does not interfere with cleaning the tubes.

It will not choke up, and requires no cleaning.

It requires no direct dampers to be opened when raising steam (dampers being objectionable, as they may be left open and allow sparks to escape.)

It requires no water to extinguish sparks, which, by condensation, destroys the draft. Besides, when water is used, if neglected, the efficiency is destroyed by evaporation of the water, and the boiler is kept in a filthy condition.

It is simple and durable, and can be relied upon.

It can be attached to any boiler.

No planter should be without one of them. Insurance companies will insure gins and barns where the Talbott Engines and Spark Arresters are used at same rate as charged for water or horse-power.

**The Mowing.**

The clock has struck six
And the morning is fair,
While the east in red splendor is glowing;
There's a dew on the grass, and a song in the air,
Let us up and be off to the mowing.

Wouldst know why I wait
Ere the sunlight has crept
O'er the fields where the daisies are growing?
Why all night I've kept my own vigils, nor slept?
'Tis to-day is the day of the mowing.

This day and this hour
Maud has promised to tell
What the blush on her cheek was half showing,
If she waits at the lane, I'm to know all is well,
And there'll be a good time at the mowing.

Maud's mother has said,
And I'll never deny,
That a girl's heart there can be no knowing.
Oh, I care not to live, and I rather would die,
If Maud does not come to the mowing.

What is it I see?
'Tis a sheen of brown hair
In the lane where the poppies are blowing.
Thank God! it is Maud—she is waiting me there,
And there'll be a good time at the mowing.

Six years have passed by,
And I freely declare
That I have noticed their going;
Sweet Maud is my wife, with her sheen of brown hair,
And we had a good time at the mowing.

# TUTT'S PILLS

INDORSED BY
PHYSICIANS, CLERGYMEN AND THE AFFLICTED EVERYWHERE.
THE GREATEST MEDICAL TRIUMPH OF THE AGE.

TUTT'S PILLS CURE SICK HEADACHE.
TUTT'S PILLS CURE DYSPEPSIA.
TUTT'S PILLS CURE CONSTIPATION.
TUTT'S PILLS CURE PILES.
TUTT'S PILLS CURE FEVER AND AGUE.
TUTT'S PILLS CURE BILIOUS COLIC.
TUTT'S PILLS Cure KIDNEY Complaint.
TUTT'S PILLS CURE TORPID LIVER.
TUTT'S PILLS IMPART APPETITE.

DR. TUTT has succeeded in combining in these pills the heretofore antagonistic qualities of a STRENGTHING, PURGATIVE, and a PURIFYING TONIC.

Their first apparent effect is to increase the appetite by causing the food to properly assimilate. Thus the system is nourished, and by their tonic action on the digestive organs, regular and healthy evacuations are produced.

The rapidity with which PERSONS TAKE ON FLESH while under the influence of these pills, indicates their adaptability to nourish the body, hence their efficacy in curing nervous debility, melancholy, dyspepsia, wasting of the muscles, sluggishness of the liver, chronic constipation, and imparting health & strength to the system. Sold everywhere.

### Weather Report.

WASHINGTON, July 1 .

For the South Atlantic States, falling barometer, southerly winds, stationary temperature, partly cloudy weather.

### Thermometrical Table.

The thermometer, at L. Branson's book-store, ranged as follows yesterday:

| | |
|---|---|
| 9 A. M. | 84 |
| 12 M. | 90 |
| 3 P. M. | 92 |
| 6 " | 91 |

### Index to New Advertisements.

### LOCAL BRIEFS.

——No business before the Mayor yesterday morning.

——The city geese languish under the shades of the pumps.

——Internal Revenue receipts yesterday $658.76.

——Mr. Terrill Gill, an old resident of Raleigh, died at about 6 o'clock last evening.

——Readers of the NEWS appear to be waking up in the matter of keeping the city clean, as a number have complained to the Mayor of nuisances existing, and which are now ordered to be abated.

——Feeble attempt at a runaway on Wilmington street yesterday morning. As usual a mule, for no ordinary animal would have undertaken such a job with the mercury boiling,

——Truck in the market sells as follows: Apples, 5 @ 10 cents per dozen; 25 @ 30 cents per peck; peaches 10 cents per dozen, 65 cents per peck; cucumbers, 20 cents per dozen; watermelons, 10 @ 20 cents; cantelopes, 10 @ 15 cents.

The First Baptist (colored) Church having extended an invitation to the Rev. William A. Green, of Wilmington, to accept the pastorate, he has responded to the call and will probably preach on Sunday next.

——Those wishing to contribute to the fund to assist the colored firemen in entertaining their guests can do so by sending their donation to Messrs. Burgess and Moore, the committee, in the basement rear of the market.

——The residence of the Rev. W. S. Watkins, pastor of the First Presbyterian Church, situated on the corner of Hargett and Dawson streets, was entered by thieves Thursday evening and the parlor almost stripped of its contents.

——To show the strength of the heat yesterday it may be well to state that the thermometer in the office of Edwards & Broughton registered 110°; at W. H. & R. S. Tucker's 102°; at Greundler's cigar store. 104°, and at Julius Lewis & Company's 96°.

——The streets seemed hot as ovens yesterday noon, and was quite noticeable on going out from a store where the thermometer registered 94° in a cool corner. Reports from all over the county would seem to indicated that the heated term is pretty generally felt. Persons reading reports emanating from the Signal Service should remember that their figures range from 3 to 5 degrees lower than those of individual observations in the same localities.

——The city authorities could not have done a better thing than to grant the use of Nash Square to Mr. C. B. Fairchild. The proposition is to give the square a thorough overhauling. Mr. Fairchild will lay out the grounds, put the walks in condition with borders of flowering shrubbery and plants, and will use the unoccupied portion as a nursery. The grant extends for only a few years, and by the time it expires the city may be in a condition to put the square to the use for which it was intended by adding to the number of trees and continuing the improvements to be inaugurated by Mr. Fairchild. Moore Square stands in need of similar treatment.

### No Northern Mail.

The Northern train missed connection at Weldon yesterday and the provoking consequence is that we got no Northern mail last night. Our readers will have to put up with such meagre and unsatisfactory news as may be found in our dispatches.

### Query?

He had only his two four wheels, when he drove in town this morning. His mule ran away out at Morgantown and tore the hind wheels to pieces.—*Visitor.*

What became of the fore wheels?

### Take Notice.

All parties bound over to the Superior Court whose cases were not disposed of, must renew their bonds at once, otherwise they will be called out and judgment taken against them or their bonds. Mr Reid Upchurch will wait on all parties affected by this notice.

### Just What the Business Men Want.

Alfred Williams & Co., have just received a new Violet Copying Ink which is certainly the best in the world. It will always make a perfect copy no matter how long after the writing, and several copies can be made *from the same writing at different times.* The Ink is beautiful in color, flows freely and will give full satisfaction whenever used.

### The Colored Firemen.

For some time past the colored firemen of this city have been perfecting arrangements for a parade, with the intention of having a number of companies from other places present. It was intended to carry out this arrangement on the Fourth, but it was impossible for the invited companies to come, and it was decided therefore to postpone the parade until the 17th. They now have their arrangements completed, and expect companies from Wilmington, Charlotte, Fayetteville and Warrenton to arrive here on Wednesday and on Thursday the parade will take place. It is stated that the colored military will also take part in the parade.

### Serious Accident.

Yesterday morning our citizens were startled by the announcement that Colonel Lon D. Stevenson while coming to this city had been thrown out of his carriage and fatally injured. This proved to be false in some respects, although the accident was sufficiently serious to give color to the rumor. The circumstances are as follows: The Colonel, who lives about eight miles from here in Swift Creek township, had hitched up for a fishing expedition, and when about a fourth of a mile from his house his horse ran away, throwing him out. He struck on the side of his face, cutting a terrible gash. He was taken up and carried home, and Dr. E. Burke Haywood sent for. The Dr. was not at home, but his son, Dr. Hubert Haywood, started for the Colonel's residence. He dressed his wounds and stayed with him for about three hours, and when he left the Colonel was somewhat easier. Although it was a terrible fall the Dr. thinks that the Colonel will recover. The skull was not fractured as at first reported.

### Improved Machinery.

It is our pleasure to again call your attention to the advertisement of the energetic firm of Stronach & Allcott, machinery dealers. It is a great pleasure to visit their machinery warehouses and see their sample machinery. They have over six thousand dollars' worth on hand, and it seems an unusual pleasure for them to show and explain its merits. We were surprised at the amount of their correspondence from this and other States. Parties are beginning to realize the advantages of dealing with a reliable house here—at home—than to send orders to houses they are not acquainted with. Almost always better terms and prices can be made here than to send elsewhere. When you call on them don't forget to ask Allcott to tell you about the Talbott engine and machinery. He says the house of Talbott & Sons will back him with any amount of money for any statement he may make concerning them or their engines and machinery.

### A Case for Sympathy.

On Hargett street near the eastern limit of the city, lives Mrs. William Pardue. She appears to be an intelligent woman although illiterate. She is the mother of eight children, nearly all of whom have attained their majority. The eldest, a woman, is married, and lives somewhere North. The next, a male named Samuel, is twenty-nine years old, is an idiot and a cripple, and has a huge double goitre on his neck. His younger brother, Travis, is also an idiot and afflicted with epileptic fits, having one every hour of the night. Their lower limbs are wofully deformed, having never had strength enough to enable them to walk, and lying and crawling about on the floor has distorted them nearly out of all resemblance to legs.

Mrs. Pardue states that these children were born healthy and continued so until they had reached the age of sixteen or eighteen months, when they were attacked with epilepsy, of which their present deplorable condition is the result. The eldest is able to sit on a chair after being placed there, but the other sits and lies on the floor throughout the day. The father of these children is insane, and has been so for a period of sixteen or eighteen years. He was in charge of the authorities of Wake county for a long time, but was transferred a few years since to the county from which he originally came. As before stated, she appears to be intelligent, and her house presents a cleanly appearance. She states that her other children were "right peart," and have never given any indication of unsound mind, but they have never been able to avail themselves of any educational advantages. She does not seem to have much acquaintance with the people of the city, "as the care of the children" takes up all her time." It is a pitiable case, and may well claim the attention of the charitable.

Merchants visiting New York will find the "St. Nicholas" hotel admirably situated for all their purposes of business and pleasure. This is proven by an immense commercial patronage. In every respect the "St. Nicholas" appeals to the favor of the public, for table, apartments, and all the accommodations of the model hotel are not to be surpassed anywhere.

### Wine With Cake for Entertainments.

We take pleasure in directing the attention of the public to Speer's celebrated Port Grape Wine, a pure and unadulterated article, upon which every one may most implicitly rely. This wine is made at Speer's Vineyards, Passaic, New Jersey. It has a rich flavor, mellow juiciness, and brilliant color; and is not only an agreeable beverage, but is highly beneficial in all its properties for invalids and aged persons. For sale by William Simpson, druggist, Raleigh, N. C.

### A Brilliant Scene in New Orleans.

On the 17th of June last, in the city of New Orleans, there were gathered many of the principal citizens of the Crescent City, in company with a large number of strangers from different parts of the country there, who as visitors felt interested in the witnessing of the grand extraordinary drawing of the Louisiana State Lottery by Generals Jubal A. Early and G. T. Beauregard. The warriors went at it as squarely as ever they led a panoplied host into battle, and by the turn of the wheel scattered fortunes right and left. Space would be too great to enumerate, but the next drawing takes place on August 12th, (the invariable second Tuesday) and all other information will be promptly given on application to M. A. Dauphin, P. O. Box 692, New Orleans, La., or the same at No. 319 Broadway, New York city.

### Unheard of Bargains!

Who tries his best to please his friends
And in his labors never ends,
Bargains he'll give you when you call
For No. 10 is all and all.
Of other houses you hear them talk;
In Fayetteville street just take a walk
And only ask for No. 10,
Kept by the most ingenious of men,
And when his friends by chance drop in
Then forth he comes, Lord what a grin,
And to their wondering eyes displays
Such heaps of brackets and window shades.
His pictures are exposed to public view
And a variety of cord to suspend them too,
His looking glasses and toilet cases
Will help adorn your forms and faces;
Picture frames and mouldings too
In great variety, black, brown and blue.
His window cornices and lambrequins fine,
Will make your rooms and parlor shine.
Perforated mottoes, and white holly baskets.
And every other sort of stuff,
Of which he hopes to have enough.
So now he bids you all adieu
And wishes a happy new year too,
And not forget

T. C. CLAWSON,
No. 10 Fayetteville St.

You can now stop at the Grand Central Hotel, on Broadway, New York, the American plan for $2.50, or $3.00 per day; or you can, on the European plan, take your breakfast there, in the morning, take your lunch down town, or dine with a friend, and your room at the Hotel will only cost you $1.00 per day, and upward, and meals are also provided, at moderate prices, at the elegant Restaurant attached to the Hotel.

For Congress.—The fame of the average Congressman is of such short lived duration that it seems hardly worth while now to pay $20,000 for an election. Who wants the nomination in our district? for there is nothing equal to Henry's Carbolic Salve for the cure of all sores, wounds, cuts and skin diseases. Beware of counterfeits.

### As a Diuretic.

In all cases of the kidneys the best known remedy is the regular use of the famous Buffalo Lithia water from spring number 2. It acts promptly and effectually, does not differ in taste from other waters and to those who suffer from kidney complaints it is an indispensible necessity. For sale by all first class druggist.

It is held in great favor for evening parties, and for communion purposes. For sale by William Simpson.

### A Card.

To all who are suffering from the errors and indiscretion of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, Free of Charge. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. Joseph T. Inman. Station D., New York City.

### False Impression.

It is generally supposed by physicians and the people generally that Dyspepsia cannot invariable be cured, but we are pleased to say that Green's August Flower has never, to our knowledge, failed to cure Dyspepsia and Liver Complaint in all its forms, such as Sour Stomach, Costiveness, Sick Headache, Palpitation of the Heart, Indigestion, bad taste in the mouth, &c. Out of the 50,000 dozen bottles sold last year, not a single failure was reported, but thousands of complimentary letters received from Druggists of wonderful cures. Three doses will relieve any case. Try it. Sample battles 10 cents. Regular size 75 cents.

BOVINE, MISSISSIPPI, April 22, 1879.—The following correspondence will explain itself: A. WADDILL, Esq., LYNCHBURG, VA.—Dear Sir: Observing a certificate from you in reference to the "Iron and Alum Mass," of the Seven Springs, in Washington county, Va., in relation to its efficacy for Liver Diseases, would you have the kindness to inform me whether you used the "Mass" or the "Water;" also, a description of the symptoms and such other information as you may deem pertinent. I am a long-time sufferer with Liver Complaint, and naturally feel very anxious on the subject of a remedy that will afford me even temporary relief. Your early reply will greatly oblige, very respectfully,

WILLIAM BARR.

LYNCHBURG, Va., May 12, 1879.—WM. BARR, Esq., Bovine, Mississippi—Dear Sir: Your inquiry in regard to the "Liver case" which was effectually cured in my family from using the "Seven Springs Mass," is before me. The case referred to in my certificate was that of my wife's sister, who is now in her 80th year, and has been a member of my family for the last 27 years. She had been afflicted with Liver Disease for 30 years, sometimes almost dying with pains in the back, breast, and heaviness of the chest, heart-burns (intensely), sick stomach, vomiting, &c. I procured a few bottles of the "Mass" for her, and very soon after she began the use of it, her health commenced to get better, and she continued steadily to improve, and at this writing, so old, seemingly in as good health as a person who had never been afflicted with these diseases. She attributes her cure entirely to the efficacy of the "Seven Springs Mass." I regard it one of the greatest family medicines we have access to, not only for such diseases as above indicated, but for various other complaints for which it is recommended. Hoping these answers satisfactory, I am, very truly, A. WADDILL, Proprietor Lynchburg News.

For sale by Wm. Simpson, Pescud, Lee & Co., and F. H. Heartt, Raleigh, N. C., and Druggists generally.

The following gentlemen will accept our thanks for the privilege of publishing their references:

President S. Simpson graduated from Trinity College in 1873. He is a thorough scholar, elegant in general culture, and a good teacher.

B. CRAVEN,
Pres. Trinity College.

Rev. S. Simpson, A. M., was a student of Trinity College at the time I held the chair of Natural Sciences in the Institution. He made good advancements in the subjects in the Department I directed. His bearing was always dignified and courteous; and his reputation of the first character.

WILL C DOUB,
Pres Louisburg Female College,
Louisburg, N

I consider the Rev S Simpson, President of Yadkin College a gentleman of fine attainments, a good disciplinarian and an energetic and accurate instructor. I warmly recommend him to the public confidence and patronage.

W. T. CANNAWAY,
Prof. of Latin and History,
Trinity College, N C

It affords me pleasure to state that Rev S Simpson, A M, Pres of Yadkin College, N C, is a regular graduate of Trinity College, N C, having completed in addition to the other Departments of our curriculum, a full course in Greek and French, with the unanimous approval of the Faculty, and having also taken a partial course in German. I have no hesitancy in recommending him as fully competent to teach successfully all the above mentioned branches.

O. W. CARR,
Prof Greek and Modern Languages,
Trinity College, N C

PRESIDENT:

* * * * I am under lasting obligation to you for the earnest efforts you made to teach the great principles of business and prosperity. The more I do in life, the more I recognize the benefit of your teaching. *

LEE RAMSEY, A M

REV S SIMPSON, A M:

* * * * I sincerely thank you. You taught me how to think. You are the right man in the right place * * * *

R T RAMSEY, M D

President Simpson came to Yadkin College highly recommended as a teacher. For six years he has sustained himself.

CITIZENS.
